

④ *THE AZABU FIRE STATION..... We Are Here For You!*

1 Autumn Fire Prevention Campaign

The TFD conducts the Autumn Fire Prevention Campaign from November 9 to 15 every year.

The Campaign is for you to learn about fire safety and get skills to handle emergencies before a severe winter with heaters in more frequent use. This one-week activity helps you enjoy a fire-safe life and minimize fire damage in case of fire. We have two slogans: “STOP! Kitchen Fires” and “Join NOW...Fire and Emergency Drills!” In the Azabu FS service area, kitchen fires (including duct fires) are very much likely to occur in many restaurants. Meanwhile, fire and emergency drills are needed to prepare overall for natural disasters.

We keep on going with you for a safe tomorrow!

2 Fire and Life Safety Fair 2018

Before the Fire Prevention Campaign, we will have the Fire and Life Safety Fair on November 1 at IZUMI GARDEN (3-2-1, Roppongi).

There you can try a fire extinguisher, the AED, the VR disaster simulator truck (for a numbered reservation ticket), a day-to-day community life safety training van, and an earthquake simulator truck.

Also, don't miss the TFD Band concert with the TFD color guard members!

For more information, please access the Azabu FS web page.

BE THERE!!

3 STOP! Kitchen Fires

In the Azabu FS service area, a lot of kitchen fires (ex., tempura oil fires, duct fires, etc.) in the home and restaurants have been reported. We do fire prevention PR—STOP! Kitchen Fires.

Stay in the kitchen while cooking. Keep ducts clean in your restaurant. Then you can stop kitchen fires from starting.

4 Fire and Emergency Drill

A large earthquake, heavy rains or others might hit you at any moment. Join in fire and emergency drills! Be prepared for natural disasters!

★Comprehensive Joint Disaster Management Drill (in Azabu, Minato-ku)

DATE: November 4 (Sun.), 2018

PLACE: Minatokuritsu Roppongi Junior High School (6-8-16, Roppongi)

*Minato-ku will organize an English language tour.
