

## MESSAGE FROM KYOBASHI FIRE STATION

In 2018, we had **61 fires** in our service area. The No. 1 cause was **ELECTRICITY** (with fires brought about by electric appliances).

Keep the following in your mind for electric fire safety:

- ***Make sure no furniture is accidentally placed on electric cords.***
- ***Make sure electric cords are not being bundled while in use.***
- ***Don't deform the plugs and the wall socket. Dust them off regularly.***
- ***Don't go over multiple-socket outlet capacity.***

***FOLLOW ELECTRIC APPLIANCES DIRECTIONS!!***
